

Tendering details 2018

As there have been some enquiries about tendering for the CCC research grants, we would like to remind you of the following requirements and explanations in detail:

- The research grants tendered have been made available by the Cancer Research Initiative and are intended exclusively for **research projects at the Medical University of Vienna**, which are carried out by **employees of the Medical University of Vienna**.
Part-time employment is permitted if the submitting party is not active at another research institute at the same time.
- The **grant** is awarded for a specific research project, and can be used in the area of this project **for personal and material costs**. Research residences, general conferences, congresses or publications which are not directly associated with the funded project will not be financed. The hiring of office spaces, and the purchase of equipment, post-doctoral qualifications or expeditions will also not be funded. The grant can be exclusively paid out from a §27 account at the Medical University of Vienna.
- The **results** of the project must be **published in a scientific publication**.
The **published article** must give mention to the grant from the Cancer Research Initiative.
Before publishing, a **specimen copy** must be sent to Mr Dietl (Communications Department at the Medical University of Vienna) and Ms DI Fally (CCC).
- The grant will be **paid** in either a one-off payment or over two payments, depending on the amount.
- The research grant is **valid** for 2 years. The project must start within 3 months of the posting of the grant funds.
- An **interim report** after 9 months and a **final report** after 2 years for the funded project must be submitted to the CCC.
- A **project extension** can only be granted following written application and authorisation by the OEL of the CCC.

Please send all enquiries to:

Alexandra Katzer

Comprehensive Cancer Center Vienna
